**Subject:** BCP response for EtO

Hi Cindy,  
Below is BCP's response. Would you please send it to all of the appropriate people? Since there are no changes the state's data does not need to be updated.

Thanks.

**Subject:** 2014 TRI data review

Ahuja,

Good talking with you this morning. Per our discussion, I have reviewed the 2014 data and see no further changes needed. In 2014, the calculation was updated for the number of connectors and this update was submitted when filing that data in 2015. Let me know if you need anything else.

Thanks,

Tod Viso
